BNBFish

Tutorial

What is BNBFish

BNBFish is a crypto-game deployed on the BSC network.

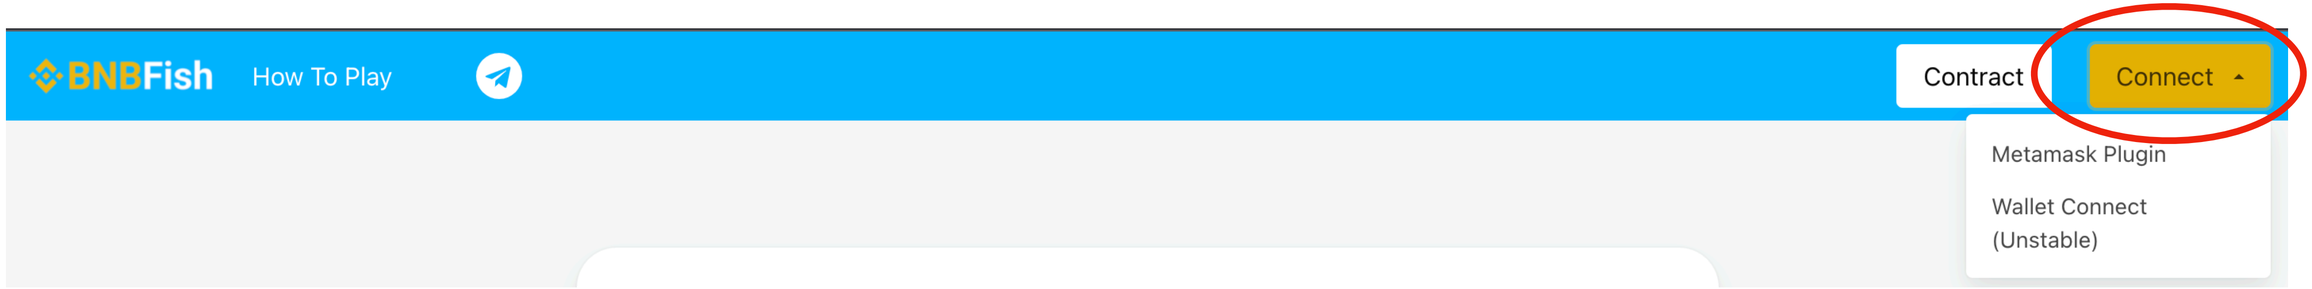
Players can buy cells on the 10x10 lake and once all cells have been sold they can check if they have won some BNBs.

Prizes:

- 1° Position - x40 Multiplier - 4000% ROI
- 2°/3° Positions - x20 Multiplier - 2000% ROI
- 4°/5° Positions - x5 Multiplier - 500% ROI
- 6°/10° Positions - x2 Multiplier - 200% ROI
- 11°/20° Positions - x1 Multiplier - 100% ROI

BNBFish

Connect wallet



Click on connect button on top right corner and choose the connection option:

- Metamask plugin (Chrome)
- Wallet Connect (Mobile)

Please note: Once connected wait some seconds to load all cells

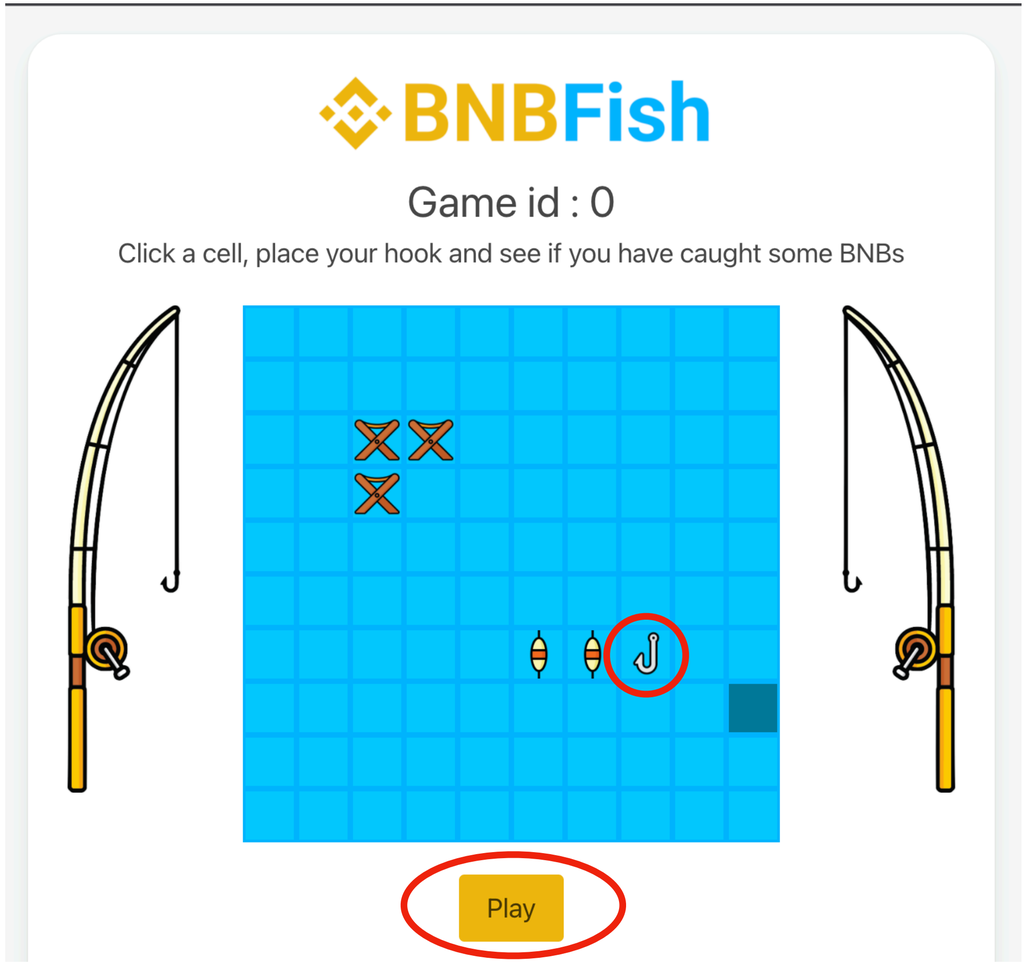
BNBFish

Play

Select the cell that you wanna buy placing an hook on it and click the play button to confirm.

Once the transaction is successfully terminated a bobber is placed on your cell.

Cells already sold to other players are identified by a wood cross.



Withdraw

When all cells have been sold, a new section pops up and you can click on your bobbers to check if you have caught something.

If you’ve won click on withdraw to get your BNBs prize.
